PAWNING MOTOR CARS

The decision resulted from a rank imposition practiced upon the pawn shops by automobile owners who, when desiring to go on vacations for several weeks. automobile owners who, when desiring to go on vacations for several weeks, found it cheaper to pawn their machine than to piace them in regular garages. The pawn brokers were forced to take good care of the machines, without the likelihood of a "joy-ride" on the part of the garage men. The "Jew Baiting" resulted from the agitation of the anti-semitic press. A large mob formed and raided the Jewish section. Michigan, and Florida, which are the most easterly states having National Forests.

While the examination is entirely along practical lines, and knowledge of field conditions rather than book learning is considered essential, the opportunities for those applicants with educational advantages are considerably increased. The rapid development of the National Forests is making continually increasing demands upon those engaged in their management, and men with ability to assume responsibility and serve in supervisory capacities are in demand. These more responsible positions on National Forests are filled by promotion from lower grades, so that anyone entering as a ranger is eligible for promotion to any of the more responsible and higher paid places, including that of Forest Supervisor.

Only those men who are at least 21 years of age, not more than forty, of good character, temperate, and in good physical condition, are eligible to take this examination. The salary paid to beginners is \$900 a year. Applicants can secure information concerning the examinations from the United States Civil Service Commission, Washington, D. C., District Foresters at Missoula, Mont., Denver, and Portland, Oreg., or Forest Supervisors.
